Testimonial!

Backlight 26 (in use by 3/5 of this workshop's participants!) good for a photo-first outing where I want to carry two bodies, 3 lenses, accessories, and a tripod. Also has dedicated slots for laptop and iPod, so it is good for travel. Fits in all but the smallest overhead compartments. Its key feature is to allow you to keep it on your waist, spin it around and open the back and manipulate your camera gear as on a table... good for places where you cannot set down your pack.
